

Outreach Ambassadors Programme 2016

The P4 Outreach Ambassadors Programme this year is held in conjunction with the Nature Keeper Programme organised by NParks. Pupils learnt about the biodiversity and wildlife in Singapore during their time at Bukit Timah Nature Reserve. They also had the opportunity to practise the virtue of service by clearing invasive plant species in the nature reserve. Everyone thoroughly enjoyed themselves.

Pupils doing their part by clearing invasive plants.

Slow and steady,
we will get there!

Group photo!

The day ends with a short tour.
