

The 2017 Netball season ended with a BANG as our Junior Team emerged 4th in the National Inter-primary Schools Netball Championships. Our players had many opportunities to practise the virtues of self-discipline, perseverance and teamwork throughout the season, having to juggle with studies and training, coupled with rest and proper nutrition to meet the demands of the competition. The journey created many learning experiences for our players, be it trainings, pre and post games discussions, motivational talks and mental rehearsals,... all aiming towards the goal for EXCELLENCE. The many face-offs with Powerhouses from other zones brought out the skills, competitiveness and toughness in our players, witnessed by our teachers, Coach Irene and even the boisterous parents who took time off to support the teams. Both teams were seasoned into the games, with the Junior team showing a lot of potential and promise. They stomped the courts with a good mixture of 'oohs and aahs', and won the hearts of their supporters with good communication, play linkages, accurate shots and graceful interceptions. We want to commend both teams for achieving Champions in the West Zone Competition and the Junior Team for a remarkable 4th place in their first National School Games. The IJ spirit lives on. IJ YA-HA!
