

CHIJ Our Lady Queen of Peace

Cultural Immersion Overseas Journey to Hong Kong (Science and Environment)

(19 November - 23 November 2017)

In 2017, 35 Primary 5 pupils and 5 teachers went on a Cultural Immersion Overseas Journey to Hong Kong from 19 to 23 November 2017. The trip aimed to enhance pupils' awareness in Science and develop their sense of responsibility towards the environment. The trip provided pupils with opportunities and experiences to develop critical thinking and prepared them to be global citizens who can be contributing community members of the society in the future.

We are all ready to set off!

During the trip, the pupils visited Victoria Peak, Hong Kong Wetland Park, Mapopo Community Farm, Produce Green Foundation Organic Farm, E-Farm and Climate Change Museum. The trip was both engaging and educational as pupils learnt about how to appreciate nature and the importance of recycling. Pupils also learnt to be independent in their quest to find out more about the Hong Kong culture.

Hands on session with transferring the organic fertilizer at the E-Farm

Learning how Polar Bears were affected by the global warming at the Climate Change Museum

Designing our own pouch at Produce Green Foundation Organic Farm

Being introduced to different kinds of plants at Hong Kong Wetland Park

Hands-on session at making chapati and soap at Mapopo Community farm

The highlight of the trip was the 2 half-day school visits to Munsang College Primary School. The pupils and staff of Munsang College were very hospitable. CHIJ OLQP pupils had the opportunity to attend lessons with their Hong Kong buddies and forge new friendships with them.

Science Lesson: Creating our own fan

Art and Craft Lesson: Making Hot Air Balloon

Cooking Lesson: Making our own Vietnamese Mango Spring Roll. Yummy!

Group photo taken with our Hong Kong buddies

Farewell performances by our pupils

Saying our goodbyes at the school gate
