

Cultural Immersion Overseas Journey to Hong Kong (Netball School Team)

A group of P4 and P5 netballers together with some teachers went on a Sports & Environment Overseas Journey to Hong Kong from 16 to 20 November 2017.

The pupils had the opportunity to interact with other netballers during the netball friendly matches. They displayed the virtues of determination and perseverance as they fought hard and played with excellence.

During the trip, pupils learnt more about environmental issues and food wastage when they visited the Eco-Farms. Pupils are given the opportunities to learn more about the culture in Hong Kong and the school system in the country.

It was an enriching experience for the pupils, as it was the pupils' first overseas trip without their parents. Throughout the fun-filled trip, pupils have a great time bonding with their friends and teachers. Many pupils have expressed their interest to go on another overseas trip again!
