

# LEARNING JOURNEY TO GARDENS-BY-THE-BAY

The Environmental Science members went for an adventure at the Gardens by the Bay on 20 September and were wowed by the wonders of nature as they immersed in learning about biodiversity of the Cloud Forest and the impacts of human's activities that threaten the survival of our world's flora and fauna.

Pupils listened attentively to the instructions and went into the Cloud Forest to learn about plants and animals that can thrive in cool, high altitude environment.

20/9/2018 2:03pm

Pupils learnt about deforestation and how it contributes to global warming.

A visit to the Dome brightens up our day!
