

## Little Greened Fingers Programme

Our Environmental Science club pupils have completed the Little Greened Fingers programme which was conducted during their CCA sessions. Throughout the whole process of sowing the seeds to harvesting their crops and then cooking them in the IJ Cooking Palace, our pupils displayed the virtue of care and patience.

Preparing the garden bed for sowing

Harvesting the crops after 3 months.

Listening intently on how to dice the tomato safely using a plastic knife.

Enjoying the fruit of their labour – pasta with garden produce.
