

Environmental Outreach Programme

@ Canossian Convent Kindergarten on 23 July 2015

On 23 July 2015, our pupils went to Canossian Convent Kindergarten for the fifth year consecutively, creating awareness on the importance of care for the environment. This year, we have specifically chosen the theme, “Cleanliness”, where pupils are informed about how cleanliness begins with them and they can start to practise the virtue of cleanliness at home and in their classroom.

Four booths were set up to assimilate learning centres and our pupils facilitated the process of internalising the significance of cleanliness to the pupils. The younger pupils were engaged in conversations in the four learning booths; Eco-colouring centre, Make a Pledge Station, Skit Corner and Spot the Mess booth.

Make a Pledge Station encourages pupils to pledge simple activities or tasks they will carry out to exercise the virtue of cleanliness at home, in school and the natural environment.

At the Eco-Colouring Centre, the younger ones are taught messages like “Cleanliness Begins with Me” and “Let’s Keep Our Earth Clean and Green”. Our pupils facilitated them in dialogue sessions, inquiring them the reasons for showing care and love for the environment.

“Spot the Mess” booth allows pupils to compare and contrasts two pictures and spot the differences. A token hand towel is given to them to reinforce the importance of hygiene and cleanliness at all times.

Pupils are engaged in the activities facilitated and led by our pupils.

The actresses in our club dramatise a scenario on Cleanliness to share the consequences of lack of cleanliness in the environment.
