

SCIENCE DEPARTMENT

Bukit Timah Nature Reserve Outreach

Our school collaborates with NParks in training our Primary 4 students to be Bukit Timah Nature Reserve ambassadors. Our students contribute their time and effort to make the nature reserve a better place for the plants and animals. On 3 February, NParks educators shared with our students how they could raise environmental awareness.

Students listening attentively to the talk given by the NParks educator.

Students enjoying a virtual tour of the Bukit Timah Nature Reserve.
