

NUS High School Oratorical Challenge 2018

On 3 August 2018, Caitlin and Kadambari from 6 Hope took part in the NUS High School Oratorical Challenge 2018. They were among the top 20 finalists and they did the school proud! Each of them received a commendation award. This challenge offers a unique experience where Primary 4 to Primary 6 students compete in delivering both fictional and information/scientific speeches. It aimed to develop students' versatility in communication and to cultivate students' interest in research, writing and public speaking.
